A LETTER from John Rowe

Britannica Junior

425 NORTH MICHIGAN AVENUE • CHICAGO 11, ILLINOIS

EDUCATIONAL DEPARTMENT

Dear Friend:

CHAPTER AND VERSE FOR THE *"FRESH" APPROACH TO CHILDREN*

The number "17" has curious significance in the development of children and in the development of the 17-year Cicada.

Each must undergo a metamorphosis to reach its adult form. The seventeen year period from Kindergarten to College degree parallels in time the nymph's 17-year slumber in its subterranean chamber.

But it is the teacher, not Mother Nature, who watches over this critical period of a child's development.

What an interesting comparison for classroom discussion!

In Britannica Junior, under "Cicada," may be found the material for such a discussion. The text for an inspiring talk, that may bring alive a consciousness of the importance of school years, and the child's role in forming man!

Britannica Junior is an inexhaustible well of such material, so edited that the words of the text may be used without diluting them for full comprehension at the elementary level.

Yours sincerely,

John R. Rowe
Educational Director

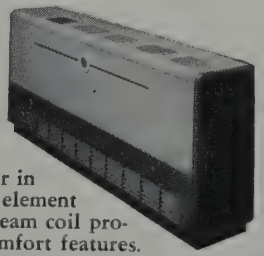
HERMAN NELSON UNIT VENTILATORS GIVE MORE CLASSROOM COMFORT PER DOLLAR

HOT WATER OR STEAM

Herman Nelson Unit Ventilators with patented DRAFT|STOP control downdrafts without adding to the heat load, provide ideal classroom climates.

AIR CONDITIONING

The HerNel-Cool unit provides mechanical cooling, heating, ventilating or natural cooling as required. Thoroughly tested in hot, humid climates.



GAS

New UNIvent Gas School Ventilator provides all the health and comfort features of the DRAFT|STOP system in a completely self-contained unit.

MILD CLIMATES

AMERVENT built especially for schools in mild climate areas, provides fresh air cooling, heating and ventilating within the nominal cost of heating alone.

ELECTRIC

New Electric Unit Ventilator in which an electric heating element replaces the hot water or steam coil provides all DRAFT|STOP comfort features.

Herman Nelson now offers a line from which you can select the ideal unit for meeting any school's requirements! The cooling, heating, ventilating system can be "tailored" to provide true classroom comfort in the most economical and most practical way.

VARIETY OF FUELS

In temperate or cold climates, the *Herman Nelson Unit Ventilator* operates with either *hot water, steam, gas* or *electricity.* The patented DRAFT|STOP system has given a new meaning to "classroom comfort" as it controls down drafts and automatically provides a constant supply of properly heated or cool fresh air.

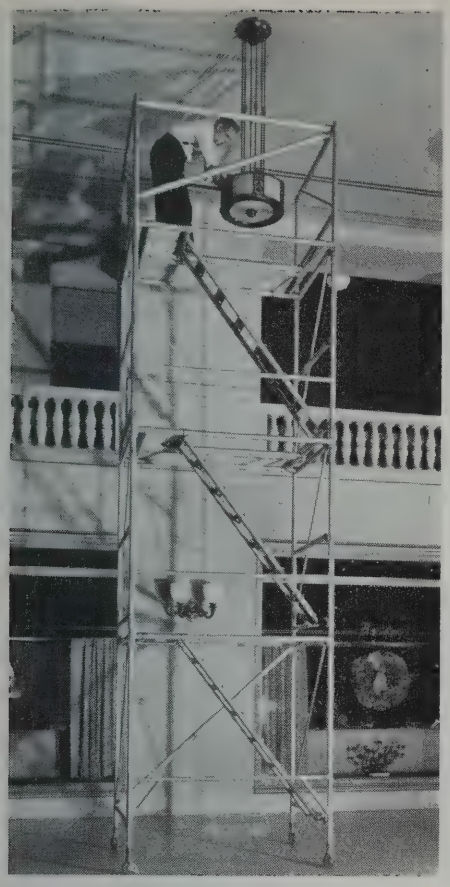
AIR CONDITIONING

HerNel-Cool units offer an economical and practical solution to the increasingly important air conditioning problem. Most of the year they provide heat, ventilation or natural cooling (with outside air). Air conditioning can be provided at any time by simply adding a chiller to the system. The units switch automatically to mechanical cooling with chilled water circulating in the same piping that carries hot water during cold weather.

MILD CLIMATES

Schools in mild climates have an increased cooling and ventilating problem and a decreased heating problem. With Herman Nelson *AMERVENT* these schools can now enjoy all the essentials for classroom comfort—cooling, heating and ventilating—without paying for the excess heating capacity required in frigid climates.

* * *



Flexibility will always be important to Herman Nelson—for there is no "one best" system to provide for heating, ventilating and cooling classrooms. The health and comfort of pupils and teachers come first. Climate area, design and structure of each school will indicate the most economical and practical system to achieve that ideal classroom atmosphere.

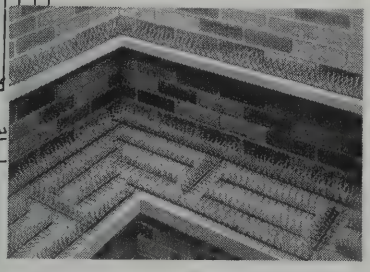
Nixalite®

Bird and Climbing Animal BARRIER AND REPELLENT

WHAT IS NIXALITE?



Nixalite is a precision engineered combination of spring-tempered, rust-proof, nickel-and-chromium, stainless steel prongs. The projecting needle-sharp points form a semi-circle. The prongs (120 in every foot) are staggered and curved in varying angles, all symmetrically extending outward and upward from the flexible base bar in which they are embedded, fused and welded. In appearance, Nixalite resembles a porcupine.

Because of the flexible base bar, Nixalite's all-projecting prongs extend effectively outward within the full 180° radius whether installed on narrow, angular or curved surfaces. Nixalite blends naturally and inconspicuously with any architectural design.

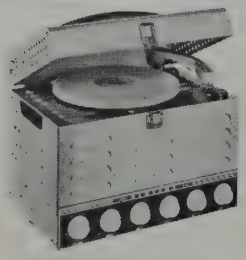
NEWCOMB
AUDIO PRODUCTS

First in sound since 1937

In 1957 Newcomb Audio Products Co. celebrates its twentieth anniversary. The company is today probably the largest independent manufacturer of sound amplification products in the nation. The policies which have brought Newcomb to this preeminence can best be summed up with the one word, "balance." Within the company a balance has been achieved between Engineering, Production, Testing Departments. In Newcomb products a fine balance between operating features, performance, dependability, beauty, is maintained. Product design is invariably balanced with the use to which the product will be put. The value of any Newcomb product is based not upon any one "sensational" feature but upon an even distribution of quality throughout the entire unit.



Newcomb record and transcription players, and public address systems are designed specifically for use in churches, schools, and institutions. Newcomb products are built to be rugged, safe, easy to operate and maintain. All parts are top quality. Under-chassis components are secured with metal clips. All Newcomb products are approved by the Underwriters Laboratories. These are some of the reasons why Newcomb products are so widely used in public and private schools. In fact some school systems, basing their choice upon many years of successful experience with these products, specify Newcomb exclusively.

St. Francis Seminary

Milwaukee, Wisconsin

The recent expansion and modernization program of this century old Seminary has included the installation of a new three manual Reuter Organ. A Reuter was chosen, in preference to all other fine pipe organs, only after exhaustive study had shown it capable of fulfilling the high standards of their music program.

Designed and built exclusively for St. Francis Seminary, the instrument contains both exposed and expressive divisions, imparting proper color and dynamic level for any occasion, and its virtually "free standing" location allows free egress of tone into the room.

St. Francis is typical of those discriminating purchasers who, seeking the finest in organ building, are choosing the new Reuter. We cordially invite your individual inquiries.

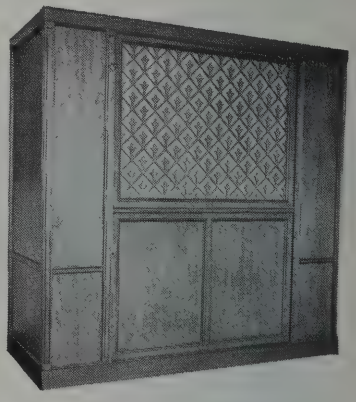
Yes, your church can afford a real pipe organ...



THE ARTISTE BY MÖLLER

To meet the pipe-organ needs of the small church and chapel, M. P. Möller created the incomparable Artiste. Smaller in size and simpler in design—yet retaining famous Möller tonal qualities—the Artiste offers a *true* pipe organ at a cost competitive with other types of instruments.

The Artiste is available in several models ranging in price from $4,475* up, including installation.

**Price slightly higher in the West*

The ARTISTE pipe organs include attractive cabinets to enclose mechanism and pipes.

Only PIPES can furnish true ecclesiastical tone. Shown at left are the 233 pipes in the three stop ARTISTE. If organ chambers are available, the pipes and mechanism can be installed in these chambers.

For complete information and specifications, write for new Artiste folder.

Moisture DROPS COST DOLLARS!

Yes, the seemingly harmless little drops of water, when multiplied countless times, can cost *you* many much-needed dollars in extensive repair and redecorating expenses. Take steps *now* to prevent such destruction to your church property by having a thorough inspection made by our experts.

For over three decades our engineers have been detecting and eliminating the cause of moisture damage, both above- and below-ground, in some of America's finest structures. Let us show you how to protect *your* buildings at reasonable cost. All installations carry Western's famed 5-year guarantee. Write now for full details — no obligation, of course.

The parapet walls and cornices of the Archbishop's Residence are protected by the installation of Western's Waterproofing and Weatherproofing treatment, the work being done for His Excellency, the Most Reverend Richard J. Cushing, D.D., Archbishop of Boston.

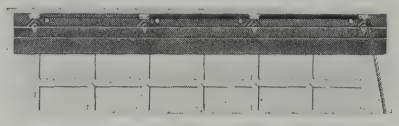
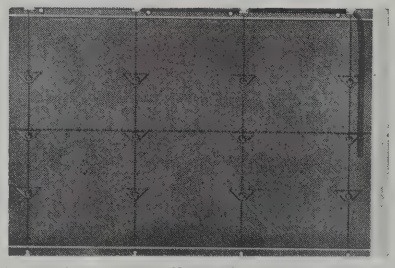
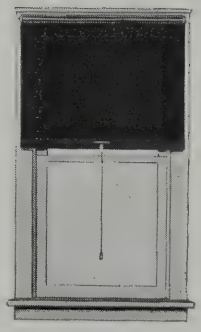
FORSE WEARPROOF SHADES



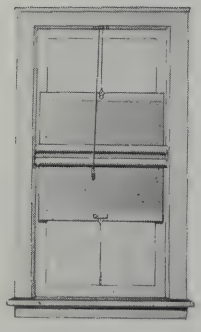
For over 40 years, Forse Wearproof Shades and Draperies have been used in class rooms, auditoriums, gymnasiums, offices — wherever quality, economy and long trouble-free service are paramount requirements. They are designed to provide, at reasonable prices, equipment that is both attractive and durable. All Forse Wearproof Shades and Draperies are guaranteed for 10 years. Many in service today were put up more than 20 years ago.



DARKENING DRAPES — These draperies, made from Forse Wearproof Darkening Materials, provide effective and attractive installations over glass block, wide windows and window groups. Generous overlaps are recommended at top and bottom of windows, and they should usually be several feet wider than the openings to be covered. Translucent draperies for control of light and glare are also available.

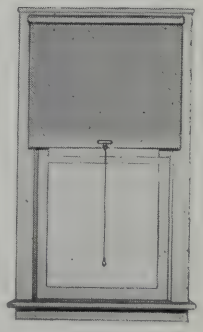


No. 50 DUO-ROLL DARKENING — Can be used as a multi-purpose shade when darkening requirements are not too severe. A good shade for high narrow windows. Space between the rollers is covered by a metal light shield.



Above — FOLDED Below — OPEN

No. 10 FOLDING DARKENING — A most economical shade for darkening large windows. Single shades will cover windows up to 15 ft. wide. Very wide windows (over 15 ft.) require multiple-unit overlapping shades. No. 10 shades hang snugly against wall or casings and provide excellent darkening installations. They are easily raised and lowered by cords and secured in the desired position by cleats at the side or bottom. When not in use, they fold at the top where they cannot be damaged. Whenever possible, No. 10 Darkening Shades should overlap openings at least 6 inches on each side. The height should be about 12 inches greater than opening height and they should be attached about 9 inches above the top of the window openings.



No. 30 SINGLE ROLL DARKENING — Excellent for darkening small and ordinary size windows. For best results, the cloth should overlap the openings at least 3 inches on each side. Also available in Pull-up Type with lock pulley at top of opening.

No. 5 DUO-ROLL (left) — Duo-Roll Shades permit shading upper and lower sections of windows independently of each other. Upper shade is adjusted by a long cord and lock pulley at the top of the window. A metal light shield covers the space between the two rollers.

No. 3 SINGLE ROLL (Right) — Recommended for small windows. Also available in Pull-up Type with lock pulley at top of opening or sash. Easily installed on French, austral, tilting sash and transom windows.

Forse Shades and Draperies are made to meet every requirement for light control and room darkening. They are available in attractive fabrics and colors to harmonize with your other appointments. Write for literature and material samples.

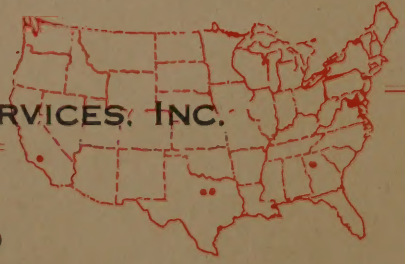
Successful Fund-Raising For Catholic Institutions

QUI NON PROFICIT, DEFICIT



NATIONAL'S service is designed for both large and small Catholic institutions, securing equally effective results. $55,000 was raised on a goal of $50,000; and an objective of $3,750,000 was more than attained with $3,976,000 raised. *Upon request, we will provide you with many Testimonials concerning our services to the Church.* Your friends can tell you how they have had successful campaigns directed by NATIONAL FUND-RAISING SERVICES, INC.

SAPIENTIA OPTIMA ELIGAT

The success of your fund-raising campaign depends on the Director in charge and the leadership of the clergy and laity. Our representatives have been trained on the job and in staff meetings, learning to solve innumerable problems. They have directed all types of campaigns in many parts of the Nation, bringing maturity and sound judgment to every project. Each campaign is different—with different people—different economic conditions—different problems. *The ability of our Directors to analyze each local situation and come up with a successful solution has been proven.* Your first campaign is the beginning of a long and close friendship. During pledge collection periods, we keep in constant touch with each client. We are always available to assist in the planning and problems that arise — and therefore are many times called to serve again as new needs develop.

CARPE DIEM

Now is the opportune time to have a professionally directed fund-raising campaign. Each of NATIONAL'S Directors has been carefully trained; each has a fine record of accomplishment; each is a man you will like and respect. It is because of these high standards that results obtained by NATIONAL FUND-RAISING SERVICES, INC., are outstandingly successful.
